Please note that Ireland and the United Kingdom are non-Schengen EU countries.

The Schengen Area encompasses most EU States, except for Bulgaria, Croatia, Cyprus, Ireland, Romania and the United Kingdom. However, Bulgaria and Romania are currently in the process of joining the Schengen Area.

Data on CZ: 54 "C" visas were issued at the airports of the Czech Republic. This number could be included in the total. However, it is not possible to divide, if the foreigner belongs to the first column or to the second one.

Data on HR: All aliens who are holders of valid Schengen documents, as well as national visas and residence permits of Bulgaria, Cyprus, and Romania do not require an additional (Croatian) visa for Croatia. Therefore, the majority of visas issued to third country nationals resident in another EU MS were visas issued by the Croatian Embassies in the United Kingdom and Ireland. D visa is not envisaged by the Croatian legislation.

Data on IE: non-Schengen visas

Data on LV: The data provided in the table have been extracted according to the Embassies who have issued visa (EU countries and non-EU countries). In the territory of Latvia 3,037 C visas and 687 D visas have been issued. This number has been included into total visa number as this is not possible to determine the country of residence of the applicant.

Data on NL: 474,191 (issued at consulates) 12,756 (issued at border crossing point)..
